HONGKONG, THURSDAY, AFRIL 10, 1890.

THE business done at the meeting of th

Legislative Council yesterday was mainly of a routine character. Still there were some matters discussed which are of considerable public interest. Foremost in importance were the financial minutes. The Council was asked to vote \$991.37 for repairs to the telegraph cable between North Point and Kowloon. The explanation given with regard to this vote was very meagre. Some unknown vessel dragged certain cables and twisted them together, but which cables were damaged was not stated. The Eastern Extension Company's Canton line is connected by cable from North Point to Kowloon, and if it was involved in the entanglement, the Company ought to have been called upon to bear a part of the expense. The Covernment has two cables near this place, one between Whitfelld and Hunghom and the other, we pregume, further East near the Telegraph Co's cible. Mr Lister raised the very eportment question, What need has the Colony of two cables between Hongkong and Kowloon? We must confes that we fail to see the necessity of two cables. Apart from the Observatory work, which at the most ought not to occupy more than half an hour every day, the telegraphic messages sent from Victoria to Kowloon are very few indeed It appears, however, that the Director of the Observatory has been kicking like a spoiled child because he has not a cable all to himself, and the Government has been weak enough to yield to him. If the extra cable were essential to an efficient service of storm-warnings, no one yould gradge the money spent in laying and maintaining it. But, with a little improvement in the clerical arrangements, there ought to be no difficulty in rapidly transmitting messages to the Observatory. An order might be given, without any one suffering any inc nvenience, that-at

messages should have precedence over all

report of the Observatory Commission, which

may make many things blear which now are dark. But, judging from Dr. Doberck's last year's performances, we should say that the improvement required was not in the shape of extra cables but in the principle on which the Director worked. Another-financial matter considered by

the Committee of the Council yesterday was the proposed vote of \$34,000 for the purchase of Buxter House, which it is proposed to transform into a police station, with quarters for married sergeants adjoining. The price, it must be admitted, appears rather stiff; but we have Mr MacEwen's assurance that it is reasonable, considering the value of properly in the neighbourhood. The Chairman gave very little explanation about the matter, but we may suppose it was impossible to find another suitable site in the district. The Government ought always to avoid, whenever it is possible to do so, purchasing property from its own servants, as, reither rightly, or wrongly, such transactions are generally looked on with suspicion by the public. The resolution to devote a part of the buildings as married quarters for European sergeants is certainly to be commended. The small sum allowed as quarters has forced the married sorgeants to live in Chinese houses, where they were subjected to innumerable discomforts distastical to even the least sensitive European. We are the more glad to hersld this change, as hitherto the science of how not to do a thing has been the chief study in the matter of buildings for the police. A commedious, one might almost say palatial structure was eregted several months ago at the foot of Mount Davis, a quarter of amile from any habitable building; and this Station has remained vacant since it was finished. As there is no likelihood, judging from the small expansion in that direction, of there being a population near the place for five or six years to come, it will be long before the structure can be of much service. It is the general custom for police stations to follow the inhabitants, We continue to supply large bottles but in this case the natural order has been reversed in a way poculiar to Hongkong. On the other hand, at the village of Aberdeen, where the low-lying station has long whenever practicable, are despatched by been fever-stricken, the work of building a new one higher up the hill, which was begun more than eighteen months ago, was stopped after the ground was cleared, just because the new station was much wanted. There is also a large and very valuable pieco of ground in front of the Central Police Station which has lain vacant for ten years or so. We will be as charitable as to suppose that the responsible authorities have got into their heads some comprehensive scheme for dealing with the ground when the transference of the gaol to Bonham Road throws open a large lob of land immediately adjoining.

The other matters discussed in the Council are not of much public interest. The members have a heavy work before them in the consideration of the Magistrates Bill -s measure of over a blandred le q sections. We can well imagine the unofficial members desire to shirk the responsibility of discussing the details, mostly of a purely legal character, of this huge ordinance. But many of the matters therein are of considerable importance. It is to the interest of the Colony that the forms and processes of the Magistrates Court should be clearly defined. Ambiguities in the past have led to several miscarriages of justice; and to judge from the way in which the small part of the measure considered in committee was criticised, the Ordinance is not quite pericot. Dr. He Kii, we are glid to see, has already justified his appointment on the Council, and perhaps the unofficial members may be excused in leaving him to represent them in the discussion of the legal questions with which the ordinance bristles. Still there are many points in the Bill, with regard to which the experience of the Culony possessed by the other unofficials might be of as much value as legal knowledge, and we think the members who in a qualified censo represent the public are scarcely performing their duty in seeking to avoid the examination of the Bill in committee.

CHAR Kum, a bricklayer, was charged before Mr Wodehouse, in the Police Court to-day, with intimidating a witness by using threats. The complainant, a widow living in Wanchai, said that on the 8th instant a man was charged with snatching her earrings, and while the case was going on the present defendant accested her outside the court and said . You must not give evidence against the man : I will take you to Saiping - gives me very great pleasure to ask you to pun and give you the carrings back. If you do give evidence we will set fire to your house; we know where it is." The case was remanded for further inquiry.

A CORRESPONDENT writes to us : - 'I am not a German, but still I know as much about German affairs as to express my surprise at the utterly ridiculous telegram re Gorman officers which appeared in your paper last night. I can't believe Reuter knows so little about the matter, and am inclined to think the message has been muddled en route or is imperfectly translated. Anyone in Germany can become an officer if he has the necessary ability and can pass through the schools. THE NEW UNION CHURCH: LAYING THE MEMORIAL BYONE.

The ceromony of laying the memoria atone of Union Church, which is, being huilt on the new site in Rennedy Road was performed this afternoon by the Rov. John Chalmors, LL.D.

At the ceremony, besides members of the committee of management and members of this congregation, there were present:-Bishop Burdon, Tov. W. Jennings, Colonial Chaplain; Rev. Dr Wright, of the British and Foreign Bible Society, Pastor Hartmann, of the Berlin Foundling House, Rev. J. B. Ost and others. The Memorial Stone, one of the stones

of the North-East corner of the tower at the west end of the building, was suspended above the place in which it was to be laid, and underneath at were deposited copies of the Hongkong daily papers and specimens of the coins current in the

Mr Hugh McCallum, Hon. Secretary to the Church, said-Dr Chalmers,-In inviting you to lay this memorial stone of the re-erection of Union Church on this site, it would be presumption on my part to may anything regarding the origin and past history of the Church, for these are matters fur better known to you than anyone now in the Colony. With regard to the future, the Committee of management have very substantial reasons for bolioving that this ceremony will mark the beginning of a more prosperous time for the Church than it has known for many years past, and consequently its circle of practical Christian usefulness will be greatly increased. I now hand you the trowel and mallet with which to-lay the stone, and it be good enough to accept the trowel from the congregation as a souvenir of this to them; interesting coremony, and as a memorial both of your own personal connexion with the Church as Trustee and pastor, and of the close relation which has existed for so many years between Union Church and the London Missionary Society of which you are the honoured represen-

Dr Chalmers, after expressing his thanks

Now, gentlemen, come to the matter of reduction in the number of the present Liquidators. As you are aware, the extraordinary meeting which decided upon the Liquidation of the Company appointed the Board of Directors and

the Secretary in Hongkong, and the Consulting Committee and the Agent in London to be Liquidators at the same remuneration as before, but now that the winding up has reached is present stage, they think it unnecessary that the prosent number be continued, and Messra Gower, Chater, Elius, Fung Tang and Lao Wai chung having resined, the Liquidator here will now be Mr Michaelsen and myself. We have no doubt that the Liquidators in London will follow the same course as his been adopted here, thes bringing some saving to the expenses of the Liquidation. As the London Accounts are now the most important, the Liquidators here think it would be more satisfactory to the Shareholders generally if the annual accounts of the Liquidators were examined and certified to by an independent accountant. The Liquidators therefore propose to follow this course here. and to have the same course adopted in London and this, gentlemen; will I think meet with your approval. THE CHINA REVIEW.

CUBLISHED BI-MONTHLY.

THIS Review, which was intended to meet the wants of many students of Chinese caused by the discontinuance of Notes and Queries on Thina and Japan, has reached its Righteenth Volume. The Review discusses those topics which are uppermost in the minds of students of the 'Far East' and about which every intelligent perion connected with China or Japan is desirous of acquiring trustworthy information. It inoludes many interesting Notes and original Papers on the Arts, Sciences, Ethnology, Folklore, Geography, History, Literature, Mythology, Natural History, Antiquities, and Social Manners and Customs, etc., etc., of China, Japan, Mongolia, Tibet, and the Far East generally. Recently a new departure has been taken and the Review now N. WEDNESDAY, the 16th April, gives papers on Trade, Commerce, and 1890, at Noon, the Company's S.S. Descriptive notes of Travel by well-known DJEMNAH, Commandant Bonnerov, writers. It was thought that by extending

The Review department receives special London as well as for Marseilles, and ac attention, and endeavours are made to Literature on China etc., and to give critiques embodying statches of the Most recent works on such topics. Authors and Cargo will be received on board until 4 Publishers are requested to forward works to Editor, China Review, care of China

This number contains several articles of interest and value."-North-China Herald. 'The China Review for September-October fully maintains the high standard of excellence which characterises that publiation, and altogother forms a very interesting and readable number. Leorologiets will find an interesting and valuable contribution by Dr. Fritsche, on "the Amount of Precipitation (Rain and Snow) of Peking," showing the results of observations made at the Imperial Russian Observatory at Peking, from 1841 to "Notes on the Dutch Compation of Formon," by Mr. Geo. Phillips, contains some interesting information, although much of it is second-hand. The Notices of New Books include a most generous and appreciative review of "The Divine Classic of Nan-Hua," and the Notes and Queries

are as usual very interesting.'-North-China 'A substantial and reliable Review which all attudents of China and the Chinese would do well to patronise.'- Chrysanthemum. The November-December number of

the China Review contains loss variety than usual, but the few articles are very interest ting. The opening paper by Mr Herbernese " treats of a question that must necessarily be of great importance in the eyes of all missionaries. . . Mr E. H. Parker's "Short Journeys in Stechuen" are continued, and a goodly instalment of these trivels in the interior of China is given. Mr F. H. Balfour contributes a paper; of some length entitled "The Emperor Cheng, founder of the Chinese Empire," which will be read with genuine interest by students of Chinese history. A few short notices of New Books and a number of Notes and Queries, one of which "On Chinese Oaths in Western Borneo and Java" might appropriately have been

placed under a separate heading, complete

the number.'-H.K. Daily Press,

Trubner's Oriental) Record contains the following notice of the China Review;-The present publication, judging by the number now before us, is intended to occupy a position, as regards China and the peighbouring countries, some what similar to that which has been filled in India by the Calcutta Review. The great degree of attention that has been bestowed of late years upon the investigation of Chineseliterature. untiquities, and social developments, to say nothing of linguistic studies, has led to the accumulation of important stores of information, rendering some such channel of publicity as is now provided extremely desirable; and contributions of much interest may fairly be looked or from the members of the fereign consular services, the Chinese Customi' curps, and the missionary body, among whom a high degree of Chinese scholarship is now assiduously cultivated Student's Reading Room and Library. and who are severally represented in the first number of the Region by papers highly creditable to their respective authors. Some translations from Chinese novels and plays are marked by both accuracy and freshnoss of tyle; and an account of the career of the Chinese poet-stateaman of the eleventh century, Su Tung-p'e, by Mr. E.C. Bowra in not only historically valuable, but is also distinguished by its literary grace. Boride notices of new books relating to China and

the East, which will be a useful feature of the Review, if carried out with punctuality and detail, we are glad to notice that 'Notes' and 'Queries' are destined to find a place in its piges also. It is to be hoped that this opening for contributions on Chinese subjects may evoke a similar degree of literary seal to that which was displayed during the lifetime of its predeconsor in the field, and that the Ulina Reviews may reselve the support necessary to traure ita confinnance.
